

Kombucha Kombuviva Green

By using a blend of different green teas, this pure Kombucha reveals a fascinating and refreshing natural aroma and flavor, embodying the "less is more" philosophy. Refreshing with a delicate hint of tropical fruit; caffeine-free. Kombucha is a beverage made from fermented tea. All ingredients used are organically grown. The tea comes from the Cha Camelia plantations in Portugal—a project dedicated to producing Japanese-style tea, founded by Dirk Niepoort and his wife, Nina Gruntkowski.
