

Soalheiro Terramatter 2023

Soalheiro Terramatter is entirely different from other wines in the Soalheiro family. It is both a return to our natural origins and a look into the future. Produced with the least possible intervention in the vineyards and vinification, Terramatter is an original expression of our land. Intense in colour, aromatically expressive, and complex on the palate, it maintains a marked personality and distinctive profile. The wine's partial malolactic fermentation in chestnut barrels and early harvest are fundamental factors determining its personality. We recommend smoothly shaking the bottle before drinking to homogenise the fine lees on the bottom for an entirely different drinking experience!
