

Madeira Collection NR 3

The sweet one, made by a blend of different malvasia's from different warehouses. The aging of these wines in different warehouses gives a total different style to the wine. Some are colder giving less oxidation more freshness, other are warmer providing power and exuberant aroma. The result is a fantastic sweet wines that never feels heavy and combines with the most demanding food/

Rijping The MC 1234 is a project created by the madeira collection to lower the entrylevel on madeira wines by giving the wines less oxidation. We try to do that to blend young wines +/- 10 y old of different grape varietals with lots of fruit and good freshness. The project goal is to bring a different style from what exist in the general offer of Madeirawines
